

Declaration

Leclanché Capacitors is committed to complying with all applicable rules and regulations with regards to the protection and preservation of the environment. Production procedures are designed in full compliance of all laws regarding the environment.

Furthermore, Leclanché Capacitors is committed to providing employees a safe and healthy workplace all the while respecting high standards of environmental protection.

In our quest for an efficient, safe and healthy workplace, we monitor employee absence. Our goal is to keep employees healthy and free from injury.

Our production facility is audited, by Swiss authorities on a regular basis, for potential health and safety hazards.

In addition to the above, we are also committed to the reasonable use of natural resources.

Risk management is inherent in all of our operations, and is an integral part of our Systems Quality Manual.

We conduct yearly internal audits and commission yearly external audits to ensure full compliance to this declaration.

**Leclanché Capacitors is an ISO 9001:2015 certified company.
SQS Scope number 13, Registration number 30695.**
